# Rebranding of Mail.ru Group into VK

- On 12<sup>th</sup> October we announced the company **rebranding from Mail.ru Group into VK**
- The rebranding came as a natural progress of the **ecosystem development strategy** announced in 2020 where the social network VKontakte was positioned as the central element
- We see clear positive effects the “VK” brand has on awareness and usage, which we want to scale across the Group
- The rebranding also seeks to **maximise association** of our nearly 200 products with the broader Group
- Through rebranding, we also seek to ensure the transition to an even **deeper internal culture of collaboration**, sharing and exchange of ideas in our **ultimate goal to create unifying technologies for all people**
- The rebranding does not impact the operational structure of the business, accounting or presentation of our results

Matters discussed in this presentation may constitute forward-looking statements. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The words “believe”, “expect”, “anticipate”, “intend”, “estimate”, “forecast”, “project”, “will”, “may”, “should” and similar expressions identify forward-looking statements but are not the exclusive means of identifying such statements. Forward-looking statements appear in a number of places in this presentation and may include statements regarding: strategies, outlook and growth prospects; future plans, expectations, projections and potential for future growth; plans or intentions relating to acquisitions; future revenues and performance; liquidity, capital resources and capital expenditures; economic outlook and industry trends; the impact of regulatory initiatives; competitive strengths and weaknesses; and the strengths of competitors. The forward-looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including, without limitation, management’s examination of historical operating trends, data contained in Company records and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Such risks, uncertainties, contingencies and other important factors could cause the actual results of the Company or the industry to differ materially from those results expressed or implied in this presentation by such forward-looking statements. No representation is made that any of these forward-looking statements or forecasts will come to pass or that any forecast result will be achieved and you are cautioned not to place any undue influence on any forward-looking statement. No one undertakes to publicly update or revise any such forward-looking statement.
